SUMMARY

A possible military installation covering 100 acres is located on the north edge of Zhmerinka. This installation is road served and has a main rail line along the west side. A probable firing range is located immediately south-southwest, and two POL tanks about 1.5 kilometers (km) south-southwest. A training area containing driver-training courses and firing ranges is

located about 2 km northeast.

A comparative study of [redacted] missions [redacted] reveals this area to be unchanged and presently active.
